Environmental System & Ecosystem

النظام البيئي والنظام الإيكولوجي — بنك الأسئلة

30	6	12
Past exam questions	NCLEX-style	Flashcards

المصادر اللي اتجمعت منها أسئلة المحاضرة دي:

أسئلة سابقة · كويز 2 قضايا

جنب كل سؤال مصدره. لو السؤال اتكرر في كذا امتحان مكتوب كل مرة بمصدرها، وعليه علامة "تكرر". الإجابات كلها في آخر الملف.

اللَّهُمَّ لا سَهْلَ إِلَّا ما جَعَلْتَهُ سَهْلًا، وأنتَ تَجْعَلُ الحَزْنَ إذا شِئْتَ سَهْلًا — صلِّ على النبي ﷺ

Part A · Past Exam Questions

أسئلة الدفعات السابقة

1 The primary role of producers in an ecosystem is to: — كويز 2 قضايا

a. Consume other organisms
b. Decompose organic matter
c. Provide energy and nutrients
d. Regulate the climate

2 One of the following is considered a component of an ecosystem: — كويز 2 قضايا

a. Biotic components
b. Closed system
c. Incomplete ecosystem
d. Open system

3 The study of living organisms in their natural habitats is called: — كويز 2 قضايا

a. Biology
b. Environmental science
c. Ecology
d. Ecosystem

4 One of the components of the biological environment is: — كويز 2 قضايا

a. Water
b. Soil
c. Humans
d. Air

5 The environmental system is defined as: — كويز 2 قضايا

a. Only the non-living components
b. A system that only includes humans
c. An area of land and living organisms interacting
d. A type of ecosystem with no living organisms

6 What is the environment defined as? أسئلة سابقة

a. The surroundings of humans, encompassing material and non-material aspects.
b. A system limited to living organisms.
c. Physical infrastructure alone.
d. A natural habitat excluding human activities.

7 What are the two main types of environments? أسئلة سابقة

a. Biological and Physical
b. Natural and Constructed
c. Terrestrial and Aquatic
d. Social and Natural

8 What is part of the natural environment? أسئلة سابقة

a. Social systems and institutions
b. Living organisms, soil, and climate elements
c. Physical buildings and roads
d. Artificial agricultural fields

9 What is the constructed environment? أسئلة سابقة

a. Soil, plants, and natural resources
b. Oceans and river systems
c. Human-built infrastructure and social systems
d. Climate and atmospheric systems

10 Which type of environment includes living organisms within the biosphere? أسئلة سابقة

a. Social Environment
b. Constructed Environment
c. Biological Environment
d. Lithospheric Environment

11 What does the term "ecosystem" refer to? أسئلة سابقة

a. A system of living and non-living components interacting in an area.
b. A biological concept excluding humans.
c. Only land-based living organisms.
d. Artificial systems developed by humans.

12 Who first defined ecology in 1869? أسئلة سابقة

a. Charles Darwin
b. Ernst Haeckel
c. Louis Pasteur
d. Carl Linnaeus

13 What are the main components of an ecosystem? أسئلة سابقة

a. Producers, Consumers, Decomposers
b. Oceans, Forests, Deserts
c. Sunlight, Climate, Air
d. Soil, Rocks, Water

14 Which organisms are producers in an ecosystem? أسئلة سابقة

a. Herbivores
b. Plants and algae
c. Decomposers
d. Carnivores

15 What is the primary function of decomposers? أسئلة سابقة

a. Convert sunlight into energy
b. Break down dead organic matter
c. Consume primary consumers
d. Maintain atmospheric oxygen

16 What are primary consumers? أسئلة سابقة

a. Organisms feeding directly on plants
b. Animals consuming other carnivores
c. Decomposers of organic matter
d. Producers like plants

17 Which zone in saltwater ecosystems has the highest marine productivity? أسئلة سابقة

a. Abyssal Zone
b. Continental Shelf
c. Intertidal Zone
d. Oceanic Depths

18 Where do estuaries occur? أسئلة سابقة

a. Polar tundra regions
b. River mouths mixing with seawater
c. Tropical rainforest interiors
d. Desert oases

19 What is characteristic of tundra ecosystems? أسئلة سابقة

a. Lush vegetation and forests
b. Dry, harsh winters with no trees
c. High annual rainfall
d. Transitional grasslands

20 Which forests are found in temperate zones? أسئلة سابقة

a. Coniferous forests
b. Deciduous forests
c. Tropical rainforests
d. Mediterranean forests

21 What are tropical grasslands also called? أسئلة سابقة

a. Savannas
b. Deserts
c. Prairies
d. Rainforests

22 What is the annual rainfall in deserts? أسئلة سابقة

a. Less than 250 mm
b. Between 250–750 mm
c. More than 1000 mm
d. 500–1000 mm

23 Which ecosystem has limited productivity due to a lack of photosynthesis materials? أسئلة سابقة

a. Continental Shelf
b. Intertidal Zone
c. Abyssal Zone
d. Estuaries

24 What is a closed ecosystem? أسئلة سابقة

a. A system lacking sunlight for producers
b. An ecosystem containing all essential components
c. A freshwater-based natural system
d. A human-modified ecosystem

25 How do humans negatively affect grasslands? أسئلة سابقة

a. By planting new vegetation
b. By overutilization leading to soil degradation
c. By improving grazing patterns
d. By preventing climate changes

26 What impact does air pollution have on plants? أسئلة سابقة

a. Increases photosynthesis efficiency
b. Reduces crop growth and plant maturity
c. Enhances oxygen production
d. Improves soil nutrient absorption

27 What causes respiratory diseases in humans due to environmental pollution? أسئلة سابقة

a. Increase in dust and fog
b. Excess plant growth
c. Low humidity
d. Moderate temperatures

28 What is the impact of fluoride compounds on animals? أسئلة سابقة

a. Rickets and bone problems
b. Enhanced immunity
c. Improved tissue regeneration
d. Reduced grazing behavior

29 What do rivers transport in freshwater ecosystems? أسئلة سابقة

a. Saltwater components
b. Organic materials ensuring nutrition
c. Air particles for photosynthesis
d. Carbon dioxide only

30 Which forest type depends on dry conditions with moderate winter rainfall? أسئلة سابقة

a. Coniferous forests
b. Mediterranean forests
c. Tropical rainforests
d. Deciduous forests

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

N1 The study of living organisms in their natural habitats is: NCLEX

a. Biology
b. Ecology
c. Geology
d. Climatology

N2 Producers in an ecosystem are: NCLEX

a. Animals that eat plants
b. Green plants that provide energy and nutrients
c. Decomposers
d. Predators

N3 Select ALL abiotic components of an ecosystem. SELECT ALL

a. Water
b. Soil
c. Temperature
d. Plants
e. Light

N4 **Decomposers such as bacteria and fungi:** NCLEX

a. Produce oxygen
b. Break down dead organic matter and recycle nutrients
c. Eat only plants
d. Are top predators

N5 **Air pollution with dust and smoke affects plants by:** NCLEX

a. Increasing photosynthesis
b. Reducing sunlight and crop growth
c. Enhancing maturity
d. Improving soil

N6 **Which forest type depends on dry summers and moderate winter rainfall?** NCLEX

a. Tropical rainforest
b. Coniferous
c. Mediterranean
d. Deciduous

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Environment	Everything surrounding living organisms.	**Types**	Natural vs human-made.
Ecosystem	Area where living organisms interact with non-living components.	**Biotic**	Producers, consumers, decomposers (humans part of biological env.).
Abiotic	Soil, water, air, climate elements.	**Producers**	Green plants — provide energy & nutrients.
Consumers	Herbivores, carnivores, apex predators.	**Decomposers**	Bacteria, fungi — recycle nutrients.
Ecology	Study of organisms in natural habitats.	**Mediterranean forests**	Dry summer, winter rainfall.
Pollution effect on plants	Reduced growth/maturity.	**Fluoride on animals**	Rickets and bone problems.

Answer Key

الإجابات

1. c — Provide energy and nutrients
كويز 2 فيه كمان أسئلة عن التلوث والتغير المناخي — اتشالت لأنها محاضرات مش في القائمة. أسئلة حقوق الإنسان من كويز 1 كمان اتشالت.

2. a — Biotic components

3. c — Ecology

4. c — Humans

5. c — An area of land and living organisms interacting

6. a — The surroundings of humans, encompassing material and non-material aspects.

7. b — Natural and Constructed

8. b — Living organisms, soil, and climate elements

9. c — Human-built infrastructure and social systems

10. c — Biological Environment

11. a — A system of living and non-living components interacting in an area.

12. b — Ernst Haeckel

13. a — Producers, Consumers, Decomposers

14. b — Plants and algae

15. b — Break down dead organic matter

16. a — Organisms feeding directly on plants

17. c — Intertidal Zone

18. b — River mouths mixing with seawater

19. b — Dry, harsh winters with no trees

20. b — Deciduous forests

21. a — Savannas

22. a — Less than 250 mm

23. c — Abyssal Zone

24. a — A system lacking sunlight for producers

25. b — By overutilization leading to soil degradation

26. b — Reduces crop growth and plant maturity

27. a — Increase in dust and fog

28. a — Rickets and bone problems

29. b — Organic materials ensuring nutrition

30. b — Mediterranean forests

N1. b — Ecology
Ecology studies interactions between organisms and their environment.

N2. b — Green plants that provide energy and nutrients
Producers (autotrophs) make food by photosynthesis.

N3. a, b, c, e — Water; Soil; Temperature; Light
Plants are biotic.

N4. b — Break down dead organic matter and recycle nutrients
They return nutrients to the soil.

N5. b — Reducing sunlight and crop growth
Less sunlight reaches leaves, reducing growth.

N6. c — Mediterranean
Mediterranean forests grow with winter rain.
