اللَّهُمَّ لا سَهْلَ إِلَّا ما جَعَلْتَهُ سَهْلًا، وأنتَ تَجْعَلُ الحَزْنَ إذا شِئْتَ سَهْلًا — صلِّ على النبي ﷺ

LECTURE 1

Concepts of Growth & Development

مفاهيم النمو والتطور

Part A · Past Exam Questions

أسئلة الدفعات السابقة

1.1 Which of the following examples describes the socio-emotional dimension? — فاينال ترم أول 2025

تكرر في 2 مصادر

a. Watching a mobile swing above a crib
b. An infant smiling from her mother's touch
c. Height and weight gains, development of the brain
d. Creating a two-word sentence, memorizing a poem

1.2 Development is defined as: — فاينال ترم أول 2025

a. High level of curiosity
b. An increase in competence and adaptability
c. Qualitative change in child's function and capability
d. Quantitative change in child's body and physiology

1.3 Which of the following needs is essential for infant development? — ميدترم 2020

a. Love and security
b. Graded independence
c. Toilet training
d. Learning language

1.4 Which one of the following developmental needs is essential for school-age children? — ميدترم 2020

تكرر في 2 مصادر

a. Physical comfort
b. Learning language
c. Learning rules
d. Graded independence

1.5 Developmental stage is defined as: — ميدترم 2020

a. A fixed period that has a well-defined time limit
b. A specific period expected for physiologic changes
c. A specific way that describes the route of maturity
d. A variable period in which a specific task must be mastered

1.6 Communication is considered a dimension of development. (True / False) — ميدترم 2020

a. True
b. False

1.7 Cephalocaudal direction is from the center of the body outward to peripheral parts. (True / False) — ميدترم 2020

a. True
b. False

1.8 Which of the following is NOT TRUE about growth? ميدترم 2020

a. Weight is the best indicator of growth
b. It is physical changes and increase in size
c. Its rate is rapid during adolescence
d. Its rate is slow during the infancy period

1.9 Which of the following is NOT TRUE about growth? ميدترم 2020

a. Weight is the best indicator of growth
b. It is physical changes and increase in size
c. Its rate is rapid during adolescence
d. Its rate is slow during the infancy period

1.10 Growth & development starts as a general process before it becomes specific. (True / False) ميدترم 2021

a. True **b.** False

1.11 Which of the following statements is correct about growth and development? ميدترم 2021

تكرر في 2 مصادر

a. All children grow at the same rate
b. Growth usually proceeds from complex to simple tasks
c. Almost all the stages are not critical
d. The sequence of each stage is predictable

1.12 Which of the following is correct about the toddler period? It is the time of: ميدترم 2022

a. Imagination **b.** High physical growth
c. Intensive exploration **d.** High psychological growth

1.13 Punishment can help stop a toddler's temper tantrum. (True / False) ميدترم 2022

a. True **b.** False

1.14 The correct term that describes the process of increasing the child's physical size is ..... ميدترم 2022

a. Aging **b.** Growth
c. Maturation **d.** Development

1.15 Which of the following statements is correct about growth and development? تكرر في 2 مصادر ميدترم ترم أول 2023/2024 (ورقة الامتحان)

a. Almost all the stages are not critical
b. All children grow at the same rate
c. Growth proceeds from complex to simple tasks
d. Sequence of growth and development is predictable

1.16 Proximodistal law means that growth starts from ..... ميدترم ترم أول 2023/2024 (ورقة الامتحان)

تكرر في 5 مصادر

a. Up to down **b.** General to specific
c. Center to peripheral **d.** Specific to general

1.17 What is the correct term that describes the process of increasing the child's physical size? تكرر في 3 مصادر

ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Aging
b. Growth
c. Maturation
d. Development

1.18 Which of the following is a statement about normal growth and development on which effective nursing care is based?

ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Growth occurs at the same rates for individuals
b. Development starts with complex and progresses to simple tasks
c. Individual's growth and development are difficult to predict
d. Success in one phase of growth and development affects later phases

1.19 Which of the following is considered development?

ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Weight
b. Height
c. Communication
d. Head circumference

1.20 Which of the following developmental needs is essential for the infant?

ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Toilet training
b. Love and security
c. Learning language
d. Graded independence

1.21 Which of the following is considered a dimension of development?

كويز 1 – 2020

a. Communication
b. Head circumference
c. Height
d. Weight

1.22 The most influencing factor on growth and development is:

كويز 1 – 2020

a. Environmental
b. Nutrition
c. Heredity
d. Climate

1.23 Proximodistal law means that growth starts from: تكرر في 5 مصادر

كويز 1 – 2020

a. Up to down
b. Specific to general
c. General to specific
d. Center to peripheral

1.24 Which one of the following developmental needs is essential for school-age children? تكرر في 2 مصادر

كويز 2 – 2020

a. Physical comfort
b. Learning language
c. Learning rules
d. Graded independence

1.25 Children generally double their birth weight by 5 months of age. This is an example of: تكرر في 3 مصادر

كويز 1 – 2021

a. Development
b. Heredity
c. Physical growth
d. State of health

1.26 Proximodistal law means that growth starts from: تكرر في 5 مصادر

كويز 1 – 2021

a. Up to down
b. General to specific
c. Specific to general
d. Central to peripheral

1.27 Children generally double their birth weight by 5 months of age. This is an example of: تكرر في 3 مصادر

كويز 1 – 2021 (نسخة ثانية)

a. Development
b. Heredity
c. Physical growth
d. State of health

1.28 Proximodistal law means that growth starts from: تكرر في 5 مصادر

كويز 1 – 2021 (نسخة ثانية)

a. Up to down
b. General to specific
c. Specific to general
d. Central to peripheral

1.29 The process of an individual's capacities quantitatively should be termed as:

كويز 1 – 2022 (Microsoft Forms)

a. Growth
b. Development
c. Maturation
d. Equilibrium

1.30 In which stage is the child constantly rebelling and has temper tantrums?

كويز 1 – 2022 (Microsoft Forms)

a. Infant
b. Toddler
c. Preschool
d. School

1.31 Which of the following principles of development is INCORRECT?

كويز 1 – 2022 (Microsoft Forms)

a. There are individual differences
b. It is a continuous process
c. It is a discontinuous process
d. It is predictable

1.32 Which of the following is considered a dimension of changes in growth?

كويز 1 – 2022 (بلاك بورد)

a. Physiological
b. Cognitive
c. Communication
d. Vocabulary

1.33 Children who are taller for their age during early childhood years are taller during adulthood also. By this observation which principle of development is proved?

كويز 1 – 2022 (بلاك بورد)

a. Development is the product of maturation and learning
b. Development is predictable
c. Rate of development remains constant
d. Early development is more important than later development

1.34 Which of the following developmental needs is essential for a five-year-old child?

كويز 2 – 2022 (Microsoft Forms)

a. Love and security
b. Learning language
c. Graded independence
d. Guidance

1.35 What is the correct answer that describes the process of increasing the child's physical size? كويز 1 Google Form (ملف كل كويزات 2022)

a. Aging
b. Growth
c. Maturation
d. Development

1.36 Proximodistal law means that growth starts from: تكرر في 5 مصادر كويز 1 Google Form (ملف كل كويزات 2022)

a. Up to down
b. Central to peripheral
c. General to specific
d. Specific to general

1.37 In which of the following stages does the child have temper tantrums and use the word "No"? كويز 1 – 2023/2024 (شعبة 1 و 2)

a. Infant
b. Toddler
c. Preschool
d. School

1.38 Which principle of growth and development indicates that growth begins from the head to the feet? كويز 1 – 2023/2024 (شعبة 1 و 2)

a. Proximodistal law
b. Cephalocaudal law
c. Predictable sequence of growth
d. Growth goes from general to specific

1.39 The process of physical changes of individuals quantitatively should be termed as: كويز 1 – 2023/2024 (شعبة 1 و 2)

a. Growth
b. Development
c. Maturation
d. Equilibrium

1.40 When improvement occurs in structure and function first in the head region, then in the trunk, and last in the leg region, this represents which principle of growth and development? كويز 1 – 2023/2024 (شعبة 3 و 4)

a. Cephalocaudal law
b. Proximodistal law
c. General to specific
d. Specific to general

1.41 Children generally double their birth weight by 5 months of age. This is an example of: تكرر في 3 مصادر كويز 1 – 2023/2024 (شعبة 3 و 4)

a. Heredity
b. Development
c. State of health
d. Physical growth

1.42 Which of the following examples describes the socio-emotional dimension? تكرر في 2 مصادر كويز 2 – 2023/2024 (شعبة 1 و 2)

a. Watching a mobile swing above a crib
b. Height and weight gains
c. Creating a two-word sentence
d. Smiling for the first time

1.43 What is the correct term that describes the process of increasing the child's physical size? تكرر في 3 مصادر

كويز 2 – 2023/2024 (شعبة 1 و 2)

a. Growth
b. Aging
c. Maturation
d. Development

1.44 What is the correct term that describes the process of increasing the child's physical size? تكرر في 3 مصادر

كويز 1 جروث – ترم ثاني 2025

a. Aging
b. Growth
c. Maturation
d. Development

1.45 Which principle explains the process when an infant grasps an object with the whole hand then uses the forefingers in grasping?

كويز 1 جروث – ترم ثاني 2025

a. General to specific
b. Proximodistal
c. Simple to complex
d. Cephalocaudal

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

1.N1 A mother says her son walked before he could pick up small objects with his fingers. Which principle explains this? NCLEX

a. Cephalocaudal
b. Proximodistal
c. Specific to general
d. Fixed rate

1.N2 Which is an example of DEVELOPMENT rather than growth? NCLEX

a. Weight gain of 2 kg
b. Increase in head circumference
c. Learning to speak in sentences
d. Increase in height

1.N3 Select ALL principles of growth and development. SELECT ALL

a. Proceeds cephalocaudally
b. Proceeds from general to specific
c. Each child has an individual rate
d. Sequence is unpredictable
e. Development is the product of maturation and learning

1.N4 Which factor is considered the most influential on growth and development? NCLEX

a. Climate
b. Heredity
c. Mass media
d. Season

1.N5 Height increases faster in which seasons? NCLEX

a. Autumn and winter
b. Spring and summer
c. Winter only
d. No seasonal difference

1.N6 The period of most rapid growth after birth is: NCLEX

a. Infancy
b. Preschool
c. School age
d. Adulthood

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Growth	Quantitative increase in size; measured easily.	**Development**	Qualitative change in skills and function; needs special tools.
Maturation	Unfolding of inherited potential at the proper time.	**Cephalocaudal**	Head to feet.
Proximodistal	Center to periphery (arms before fingers).	**General to specific**	Whole-hand grasp before pincer grasp.
Individual rate	Each child has own rate; sequence predictable.	**Development is correlated**	Physical, mental, social aspects related.
Life-span characteristics	Lifelong, multidimensional, multidirectional, plastic.	**Most rapid growth**	Prenatal, then infancy; spurt at puberty.
Factors (13)	Gender, race, maturation, heredity, nutrition, prenatal env., disease, parents, pollution, climate, SES, media, relations.	**Climate**	Height faster spring/summer; weight autumn/winter.

LECTURE 2

Piaget's Cognitive Theory

نظرية بياجيه المعرفية

Part A · Past Exam Questions

أسئلة الدفعات السابقة

2.1 فاينال ترم أول 2025

According to Piaget's cognitive theory, when 10-year-old children can solve visual problems better than verbal, it is termed the ..... period.

a. Concrete operation
b. Preoperational
c. Sensory motor
d. Formal operation

2.2 ميدترم 2020

A child is able to use inductive reasoning during the age of ..... years.

a. 2 to 7
b. 11 to 16
c. 6 to 11
d. 1 to 5

2.3 ميدترم 2020

The main question of Piaget in cognitive theory is "how do people know?" (True / False)

a. True
b. False

2.4 ميدترم 2020

According to Piaget's cognitive theory, the formal operational period means that the child:

تكرر في 3 مصادر

a. Is unable to focus on more than one aspect of a situation
b. Has the ability to see logical relationships
c. Can solve visual problems
d. Hasn't the emerging ability to think mentally

2.5 ميدترم 2020

The main question of Piaget in cognitive theory is "how do people know?" (True / False)

a. True
b. False

2.6 ميدترم 2020

Children can solve visual problems better than verbal problems according to Piaget's cognitive theory in the ..... stage.

a. Concrete operational
b. Preoperational
c. Sensorimotor
d. Formal operational

2.7 ميدترم 2020

Children can solve visual problems better than verbal problems according to Piaget's cognitive theory in the ..... stage.

a. Concrete operational
b. Preoperational
c. Sensorimotor
d. Formal operational

2.8 ميدترم 2020

Children can solve visual problems better than verbal problems according to Piaget's cognitive theory in the ..... stage.

a. Sensorimotor
b. Preoperational
c. Concrete operational
d. Formal operational

2.9 Children at 12 years are able to focus on only one aspect of a situation. (True / False) — ميدترم 2020

a. True **b.** False

2.10 Assimilation means understanding of a new experience so that it can change the previous understanding. (True / False) — ميدترم 2020

a. True **b.** False

2.11 According to Piaget's cognitive theory, the formal operational period means that the child: — ميدترم 2020 — تكرر في 3 مصادر

a. Is unable to focus on more than one aspect of a situation
b. Has the ability to see logical relationships
c. Can solve visual problems
d. Hasn't the emerging ability to think mentally

2.12 According to Piaget, whatever is repeatable and generalized in an action is called: — ميدترم 2021 — تكرر في 2 مصادر

a. Schema **b.** Operation
c. Equilibrium **d.** Accommodation

2.13 A child is able to use deductive and inductive reasoning during: — ميدترم 2021 — تكرر في 2 مصادر

a. First 2 years **b.** 2 to 7 years
c. 7 to 11 years **d.** 11 to 16 years

2.14 At which stage of cognitive development do children become able to think abstractly as well as logically? — ميدترم 2022 — تكرر في 2 مصادر

a. Formal operational **b.** Sensorimotor
c. Pre-operational **d.** Concrete operational

2.15 Which of the following abilities is related to the concrete-operational stage of cognition? — ميدترم ترم أول 2023/2024 (ورقة الامتحان)

a. Classifying **b.** Assimilation
c. Organization **d.** Accommodation

2.16 Which of the following best describes Piaget's cognitive stage of formal operations? — ميدترم ترم أول 2023/2024 (ورقة الامتحان)

a. Deductive and abstract reasoning
b. Inductive reasoning and illogic
c. Transductive reasoning and egocentrism
d. Cause-and-effect reasoning and object permanence

2.17 At which stage of cognitive development do children become able to think abstractly as well as logically? — ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4) — تكرر في 2 مصادر

a. Sensorimotor **b.** Pre-operational
c. Formal operational **d.** Concrete operational

2.18 Which concept does Piaget use to refer to mental activities? ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Operations
b. Activities
c. Tasks
d. Skills

2.19 A child is able to use deductive and inductive reasoning during: تكرر في 2 مصادر ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. First 2 years
b. 2 to 7 years
c. 7 to 11 years
d. 11 to 16 years

2.20 According to Piaget, whatever is repeatable and generalized in an action is called: تكرر في 2 مصادر ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Schema
b. Operation
c. Equilibrium
d. Accommodation

2.21 The pre-operational period according to Piaget's theory develops at the age of: كويز 1 – 2020

a. Birth–2 years
b. 11 years and older
c. 2–7 years
d. 7–11 years

2.22 In terms of cognitive development, the 13-year-old child would be expected to use which thinking? كويز 1 – 2020

a. Magical
b. Egocentric
c. Abstract
d. Concrete

2.23 Actions such as ordering, classifying, creating, enumerating, and grouping are considered: تكرر في 5 مصادر كويز 1 – 2021

a. Mental operations
b. Assimilation
c. Schema
d. Accommodation

2.24 During which stage of cognitive development does the individual use primitive reflexes to explore the world? تكرر في 4 مصادر كويز 1 – 2021

a. Sensorimotor
b. Concrete-operational
c. Formal-operational
d. Pre-operational

2.25 Actions such as ordering, classifying, creating, enumerating, and grouping are considered: تكرر في 5 مصادر كويز 1 – 2021 (نسخة تانية)

a. Mental operations
b. Assimilation
c. Schema
d. Accommodation

2.26 During which stage of cognitive development does the individual use primitive reflexes to explore the world? تكرر في 4 مصادر كويز 1 – 2021 (نسخة تانية)

a. Sensorimotor
b. Concrete-operational
c. Formal-operational
d. Pre-operational

2.27 According to Piaget's cognitive theory, at which stage of cognitive development does the child exhibit object permanence? تكرر في 2 مصادر

كويز 1 – 2022 (Microsoft Forms)

a. Sensory-motor
b. Preoperational
c. Concrete operational
d. Formal operational

2.28 According to Piaget's cognitive theory, the formal operational period means that the child: تكرر في 3 مصادر

كويز 1 – 2022 (Microsoft Forms)

a. Can solve visual problems
b. Hasn't the emerging ability to think mentally
c. Is unable to focus on more than one aspect of a situation
d. Has the ability to see logical relationships

2.29 Schema building occurs as a result of modifying new information to fit existing schemes and by modifying old schemes as per new information. These two processes are known as: تكرر في 2 مصادر

كويز 1 – 2022 (بلاك بورد)

a. Assimilation and adaptation
b. Accommodation and adaptation
c. Equilibration and modification
d. Assimilation and accommodation

2.30 According to Jean Piaget's theory, a child between 2 to 7 years is in the ..... stage of cognitive development.

كويز 1 – 2022 (بلاك بورد)

a. Formal operational
b. Concrete operational
c. Sensorimotor
d. Preoperational

2.31 During which stage of cognitive development does the individual use primitive reflexes to explore the world? تكرر في 4 مصادر

كويز 1 Google Form (ملف كل كويزات 2022)

a. Sensorimotor
b. Pre-operational
c. Formal-operational
d. Concrete-operational

2.32 According to Piaget's cognitive theory, the formal operational period means that the child: تكرر في 3 مصادر

كويز 1 – 2023/2024 (شعبة 1 و 2)

a. Can solve visual problems
b. Hasn't the emerging ability to think mentally
c. Is unable to focus on more than one aspect of a situation
d. Has the ability to think abstractly

2.33 According to Piaget's cognitive theory, at which stage of cognitive development does the child exhibit object permanence? تكرر في 2 مصادر

كويز 1 – 2023/2024 (شعبة 1 و 2)

a. Sensory-motor
b. Preoperational
c. Concrete operational
d. Formal operational

2.34 Actions such as ordering, classifying, creating, enumerating, and grouping are considered: تكرر في 5 مصادر

كويز 1 – 2023/2024 (شعبة 3 و 4)

a. Accommodation
b. Mental operations
c. Schema
d. Assimilation

2.35 During which stage of cognitive development does the individual use primitive reflexes to explore the world? تكرر في 4 مصادر

كويز 1 – 2023/2024 (شعبة 3 و 4)

a. Sensorimotor
b. Pre-operational
c. Formal operational
d. Concrete operational

2.36 Actions such as ordering, classifying, creating, enumerating, and grouping are considered: تكرر في 5 مصادر

كويز 2 – 2023/2024 (شعبة 1 و 2)

a. Assimilation
b. Schema
c. Accommodation
d. Mental operations

2.37 Schema building occurs as a result of modifying new information and understanding old schemes as per new information. These two processes are known as:

كويز 2 – 2023/2024 (شعبة 1 و 2)

a. Assimilation and adaptation
b. Assimilation and accommodation
c. Accommodation and adaptation
d. Equilibration and modification

2.38 According to Piaget's theory of cognitive development, the adolescent is in which stage?

كويز (ملف Quiz Growth)

a. Sensorimotor
b. Preoperational
c. Concrete operational
d. Formal operational

2.39 Which of the following explains the cognitive development of the individual during early adulthood? تكرر في 2 مصادر

كويز 2 جروث (نسخة 1)

a. Ability to think abstractly
b. Inability to consider possibilities
c. Cannot think logically and critically
d. Focus on one aspect of situation

2.40 Which of the following explains the cognitive development of the individual during early adulthood? تكرر في 2 مصادر

كويز 2 جروث 2024 (نسخة 2)

a. Ability to think abstractly
b. Inability to consider possibilities
c. Cannot think logically and critically
d. Focus on one aspect of situation

2.41 Schema building occurs as a result of modifying new information to fit existing schemes and by modifying old schemes as per new information. These two processes are known as: تكرر في 2 مصادر

كويز 1 جروث – ترم ثاني 2025

a. Assimilation and adaptation
b. Accommodation and adaptation
c. Equilibration and modification
d. Assimilation and accommodation

2.42 Actions such as ordering, classifying, creating, enumerating, and grouping are considered: تكرر في 5 مصادر

كويز 1 جروث – ترم ثاني 2025

a. Accommodation
b. Mental operations
c. Schema
d. Assimilation

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

2.N1 A 9-month-old searches for a toy hidden under a blanket. This shows: NCLEX

a. Conservation
b. Object permanence
c. Reversibility
d. Abstract thinking

2.N2 A 4-year-old believes the sun follows him. This reflects: NCLEX

a. Egocentrism and magical thinking
b. Abstract reasoning
c. Conservation
d. Classification

2.N3 Select ALL abilities of the concrete operational stage. SELECT ALL

a. Classification
b. Conservation
c. Reversibility
d. Hypothetical-deductive reasoning
e. Seriation

2.N4 Fitting new information into an existing schema is called: NCLEX

a. Accommodation
b. Assimilation
c. Equilibrium
d. Adaptation

2.N5 Abstract and inductive/deductive reasoning appear in: NCLEX

a. Sensorimotor
b. Preoperational
c. Concrete operational
d. Formal operational

2.N6 Mental actions such as ordering and classifying are termed: NCLEX

a. Schemas
b. Operations
c. Reflexes
d. Assimilation

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Schema	Repeatable, generalized pattern of action.	**Operations**	Mental activities (ordering, classifying).
Assimilation	Fit new info into existing schema.	**Accommodation**	Change schema to fit new info.
Equilibrium	Balance between assimilation and accommodation.	**Sensorimotor 0–2**	Reflexes, object permanence.
Preoperational 2–7	Egocentric, magical, centration, transductive.	**Concrete 7–11**	Logic with concrete objects; classification, conservation; visual > verbal problems.
Formal 11–16	Abstract, inductive & deductive reasoning.	**Main question**	How do people know?
Centration	Focus on one aspect (preoperational).	**Object permanence**	Objects exist when not seen (sensorimotor).

LECTURE 3

Kohlberg's Moral Development

نظرية كولبرج للتطور الأخلاقي

5.17 Which part of the personality structure is responsible for pleasurable behavior according to psychosexual theory? كويز 1 – 2020

a. Ego
b. Superego
c. Id
d. Subconscious

5.18 According to psychosexual development, which response should the nurse make to the mother who told that her 4-year-old child has masturbation? كويز 2 – 2020

a. Children usually begin this behavior at a later age
b. The child is very young to begin this behavior
c. This is a normal behavior at this age
d. The child should be seen by a doctor

5.19 According to Freud's theory, the ego is based on the ..... principle. تكرر في 4 مصادر كويز 1 – 2021

a. Pleasure
b. Reality
c. Moral
d. Cognitive

5.20 Which of the following stages according to Freud's theory extends from 0–12 months? تكرر في 3 مصادر كويز 1 – 2021

a. Latent
b. Phallic
c. Oral
d. Anal

5.21 According to Freud's theory, the ego is based on the ..... principle. تكرر في 4 مصادر كويز 1 – 2021 (نسخة ثانية)

a. Pleasure
b. Reality
c. Moral
d. Cognitive

5.22 Which of the following stages according to Freud's theory extends from 0–12 months? تكرر في 3 مصادر كويز 1 – 2021 (نسخة ثانية)

a. Latent
b. Phallic
c. Oral
d. Anal

5.23 Which of the following explains the latency period according to the psychosexual stages of development? تكرر في 2 مصادر كويز 1 – 2022 (Microsoft Forms)

a. No psychosexual development takes place during this stage
b. Children's libidinal energy is reduced dramatically
c. Males have a tendency to develop Oedipus complex
d. This stage begins at puberty and constitutes mature adult sexuality

5.24 According to Freud's psychosexual theory, fixation at the oral stage may be represented as: تكرر في 2 مصادر كويز 1 – 2022 (Microsoft Forms)

a. Anal retentive personality
b. Electra complex
c. Anal-expulsive personality
d. Excessive eating

5.25 In the Oedipus complex a boy would feel attached to .....

كويز 1 – 2022 (بلاك بورد)

a. Father
b. Mother
c. Sister
d. Brother

5.26 In which stage would there be the least conflict in the minds of children?

تكرر في 2 مصادر

كويز 1 – 2022 (بلاك بورد)

a. Oral
b. Phallic
c. Anal
d. Latency

5.27 In the Electra complex a girl would feel attached to:

كويز 1 Google Form (ملف كل كويزات 2022)

a. Mother
b. Father
c. Sister
d. Brother

5.28 According to Freud's theory, the ego is based on the ..... principle.

a. Id
b. Ego
c. Superego
d. Subconscious

5.40 In the Oedipus complex a boy would feel attached to the .....

كويز 1 جروث – ترم ثاني 2025

a. Father
b. Mother
c. Sister
d. Brother

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

5.N1 Which part of the personality operates on the pleasure principle? NCLEX

a. Ego
b. Superego
c. Id
d. Conscience

5.N2 Toilet-training conflicts belong to which psychosexual stage? NCLEX

a. Oral
b. Anal
c. Phallic
d. Latency

5.N3 Select ALL features of the phallic stage. SELECT ALL

a. Age about 3–6 years
b. Oedipus/Electra complex
c. Masturbation can be normal
d. Libidinal energy is dormant
e. Focus on genitals

5.N4 Fixation at the oral stage may appear in adulthood as: NCLEX

a. Excessive neatness
b. Overeating, smoking, nail biting
c. Sexual difficulties
d. Aggressive messiness

5.N5 Wishes and impulses outside awareness are found in the: NCLEX

a. Conscious
b. Preconscious
c. Unconscious
d. Ego

5.N6 Which stage has the least psychological conflict? NCLEX

a. Oral
b. Anal
c. Phallic
d. Latency

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Id	Pleasure principle; present at birth.	**Ego**	Reality principle; meets id needs realistically.
Superego	Conscience/morality.	**Unconscious**	Wishes and impulses beyond awareness.
Oral 0–1	Mouth; fixation → overeating/smoking.	**Anal 1–3**	Toilet training; neat vs messy conflicts.
Phallic 3–6	Genitals; Oedipus/Electra; masturbation normal.	**Latency 6–12**	Libido reduced; least conflict.
Genital	Puberty onward; mature sexuality.	**Oedipus**	Boy attached to mother.
Electra	Girl attached to father.	**Libido**	Life force/source of energy.

LECTURE 6

Assessment of Growth & Development

تقييم النمو والتطور

Part A · Past Exam Questions

أسئلة الدفعات السابقة

6.1 Denver II screening test includes ..... — فاينال ترم أول 2025

a. Communication skills, physical, academic and social
b. Organization, play materials, parental control and stimulation
c. Personal-social, fine motor-adaptive, language and gross motor
d. Intellectual, memory, quantitative and perceptual performance

6.2 The nurse answers the mother's question about the number of words of a 4-year-old child: — ميدترم 2020 — تكرر في 2 مصادر

a. 2100
b. 1500
c. 300
d. 900

6.3 Early detection of problems is one of the purposes of developmental assessment. (True / False) — ميدترم 2020 — تكرر في 2 مصادر

a. True
b. False

6.4 In terms of fine motor development, what could the three-year-old child be expected to do? — ميدترم 2020

a. Tie shoelaces
b. Use scissors
c. Draw a circle
d. Draw a person

6.5 Denver II is a screening test used for children from birth to ..... years. — ميدترم 2020

a. 4
b. 6
c. 5
d. 3

6.6 Which of the following neuromuscular developments is related to gross motor in the Denver II test? — ميدترم 2020

a. Can hop
b. Opens lunch box
c. Uses pencils
d. Puts block in cup

6.7 Developmental and growth assessment can be administered only in one setting. (True / False) — ميدترم 2020

a. True
b. False

6.8 Which of the following neuromuscular developments is related to gross motor in the Denver II test? — ميدترم 2020

a. Can hop
b. Opens lunch box
c. Uses pencils
d. Puts block in cup

6.9 Developmental and growth assessment can be administered only in one setting. (True / False) — ميدترم 2020

a. True **b.** False

6.10 Denver Test II is used to assess the child's ..... development from birth to six years. — ميدترم 2021

a. Muscle tone **b.** Neuromuscular
c. Physical maturity **d.** Reflex irritability

6.11 Early detection of problems is one of the purposes of developmental assessment. (True / False) تكرر في 2 مصادر — ميدترم 2021

a. True **b.** False

6.12 The nurse is evaluating the motor developmental level of a 2-year-old. Which of the following does the nurse expect to observe? — ميدترم 2022

a. Imitates horizontal lines **b.** Imitates vertical lines
c. Stands on one foot momentarily **d.** Builds a tower of 8 cubes

6.13 The nurse realizes that a 5-year-old's mother needs further education about the Denver Developmental Screening Test when she states it screens for: — ميدترم 2022

a. Gross motor skills **b.** Fine motor skills
c. Language development **d.** Intelligence level

6.14 Denver II test is used to assess the child's ..... development from birth to six years. — ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Muscle tone **b.** Neuromuscular
c. Physical maturity **d.** Reflex irritability

6.15 In percentile growth curves, measurement below ..... is considered smaller than the normal curve. — ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. 50% **b.** 25%
c. 10% **d.** 3%

6.16 The nurse answers the mother's question about the number of words of a 4-year-old child: تكرر في 2 مصادر — كويز 2 – 2020

a. 2100 **b.** 1500
c. 300 **d.** 900

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

6.N1 The Denver II screens children from birth to: NCLEX

a. 2 years **b.** 6 years
c. 10 years **d.** 18 years

6.N2 Select ALL areas assessed by Denver II. SELECT ALL

a. Personal-social
b. Fine motor-adaptive
c. Language
d. Gross motor
e. Intelligence (IQ)

6.N3 A mother asks whether Denver II measures her child's IQ. The best response: NCLEX

a. Yes, it gives an IQ score
b. No, it screens developmental delays, not intelligence
c. It diagnoses autism
d. It measures school readiness only

6.N4 On a growth chart, measurements below which percentile suggest a problem? NCLEX

a. 50th
b. 25th
c. 10th (or 5th)
d. 75th

6.N5 Which is a gross motor item on the Denver II? NCLEX

a. Puts block in cup
b. Hops on one foot
c. Draws a circle
d. Names colors

6.N6 A purpose of developmental assessment is: NCLEX

a. Labeling children
b. Early detection of problems
c. Replacing medical diagnosis
d. Measuring parenting quality

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Purposes	Early detection, monitoring, guidance.	**Settings**	Multiple (not one setting).
Denver II	Screening birth–6 years.	**Denver II areas**	Personal-social, fine motor-adaptive, language, gross motor.
Denver ≠ IQ	Does not measure intelligence.	**Gross motor item**	Hops, walks, jumps.
Fine motor item	Puts block in cup, draws.	**Normal item**	Passed/failed within 25th–75th percentile age line.
Caution	Failed item between 75th–90th.	**Growth charts**	Weight, length, head circumference for age.
Small for curve	Below 10th percentile.	**Words**	2 yrs ≈300; 3 yrs ≈900; 4 yrs ≈1500; 5 yrs ≈2100.

LECTURE 7

Adjustment to Extra-Uterine Life

التكيّف مع الحياة خارج الرحم

Part A · Past Exam Questions

أسئلة الدفعات السابقة

7.1 What should the nurse do when the total Apgar score for a newborn is 3? — فاينال ترم أول 2025

a. Need resuscitation
b. Need oxygen
c. Need close observation
d. Need suction

7.2 The nurse immediately dries the newborn from amniotic fluid to conserve the neonate's heat, which of the following methods? — فاينال ترم أول 2025

a. Radiation
b. Conduction
c. Convection
d. Evaporation

7.3 Neonatal reflexes that are present at birth represent the first features of adaptation. (True / False) — ميدترم 2020

a. True
b. False

7.4 An infant who had an Apgar score of six indicates ..... difficulty adjusting to extra-uterine life. — ميدترم 2020

a. Mild
b. Severe
c. Absent
d. Moderate

7.5 The nurse should prevent heat loss in the newborn infant resulting from evaporation by: — ميدترم 2020

a. Turning on the overhead radiant warmer
b. Closing the doors to the room
c. Warming the crib pad
d. Drying the infant with a warm blanket

7.6 The first factor that fosters initial breathing after birth is: — ميدترم 2021

a. Mechanical
b. Chemical
c. Temperature
d. Sensory stimuli

7.7 The nurse should prevent heat loss in the newborn resulting from evaporation by: — ميدترم 2021

a. Warming the crib pad
b. Drying the infant with a warm blanket
c. Closing the doors to the room
d. Turning on the overhead radiant warmer

7.8 Metabolism of brown fat in the newborn helps them adapt to room temperature. (True / False) — ميدترم 2022

a. True
b. False

7.9 Which of the following factors increases the susceptibility to heat loss in neonates? ميدترم 2022

a. Large body surface area
b. Increased ability to control their metabolic rate
c. Increased insulation due to a lot of fat
d. Blood vessels of the newborn are deeper in the muscle

7.10 While the newborn loses heat from the amniotic fluid immediately after birth, this method of heat loss is called ..... ميدترم ترم أول 2023/2024 (ورقة الامتحان)

a. Radiation
b. Conduction
c. Convection
d. Evaporation

7.11 The ductus venosus constricts in response to: ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Clamping of the umbilical cord after birth
b. Increased oxygen and decreased resistance in lungs
c. Dilatation of pulmonary blood vessels
d. Increased pressure in the left side of the heart

7.12 Which of the following is the mechanical factor that influences initiation of the first breath after birth? ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Hypothermia
b. Noises
c. Decreased oxygen
d. Vaginal squeezing

7.13 Which of the following is a function of brown adipose tissue (BAT) in the newborn? ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Generates heat for distribution to other parts of the body
b. Provides a ready source of calories in the newborn period
c. Protects the infant from injury during the birth process
d. Insulates the body against lowered environmental temperature

7.14 The Apgar score is used to determine which of the following? ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Gestational age of the newborn
b. Future intelligence of the newborn
c. Major body system's response at birth
d. Level of parent and newborn interaction

7.15 Placing an infant in the direct flow of air from a fan causes rapid heat loss through: ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Convection
b. Radiation
c. Evaporation
d. Conduction

7.16 One of the earliest indicators of successful adaptation of the newborn is the APGAR score; when the score is 3 this means the newborn requires: كويز 2 – 2022 (Microsoft Forms)

a. Resuscitative intervention
b. Oxygen mask
c. Warmth and suction
d. Close observation

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

7.N1 Which is the MECHANICAL stimulus for the first breath? NCLEX

- **a.** Cold air
- **b.** Vaginal squeeze followed by chest recoil
- **c.** Low oxygen
- **d.** Noise

7.N2 The ductus venosus closes because: NCLEX

- **a.** Lung expansion
- **b.** Clamping of the umbilical cord
- **c.** Increased left atrial pressure
- **d.** Prostaglandins

7.N3 Select ALL methods to prevent neonatal heat loss. SELECT ALL

- **a.** Dry immediately (evaporation)
- **b.** Warm surfaces and scales (conduction)
- **c.** Avoid drafts (convection)
- **d.** Place under radiant warmer (radiation)
- **e.** Bathe immediately after birth

7.N4 Brown adipose tissue in the newborn mainly: NCLEX

- **a.** Stores calories for later
- **b.** Generates heat (non-shivering thermogenesis)
- **c.** Protects organs from trauma
- **d.** Insulates only

7.N5 An Apgar score of 3 at 1 minute indicates: NCLEX

- **a.** Normal adaptation
- **b.** Moderate difficulty
- **c.** Severe distress needing resuscitation
- **d.** Mild difficulty

7.N6 The foramen ovale closes functionally because: NCLEX

- **a.** Left atrial pressure becomes higher than right
- **b.** Ductus arteriosus opens
- **c.** Pulmonary resistance rises
- **d.** Umbilical vein stays open

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

First breath	Mechanical (vaginal squeeze/recoil), chemical, thermal, sensory.	**Ductus venosus**	Closes with cord clamping.
Foramen ovale	Closes as left atrial pressure rises.	**Ductus arteriosus**	Closes with rising O2.
Brown fat	Non-shivering thermogenesis.	**Evaporation**	Wet skin → dry immediately.
Conduction	Cold surfaces → warm crib pad/scale.	**Convection**	Air flow/fan → avoid drafts.

Radiation	Cold walls/windows → radiant warmer.
Heat loss risk	Large surface area, thin fat.
Apgar	HR, respiration, tone, reflex, color; 0–3 severe.
Apgar 6	Moderate difficulty.

LECTURE 8

Assessment & Management of the Newborn

تقييم ورعاية حديث الولادة

Part A · Past Exam Questions

أسئلة الدفعات السابقة

8.1 Which of the following statements describes caput succedaneum in newborns? — فاينال ترم أول 2025

a. Extravasation of blood
b. Increase in size on second day
c. Localized over the bone
d. Swelling of soft tissue across suture line

8.2 The newborn infant loses about ..... of birth weight in the first week after birth. — ميدترم 2020

a. 15–20%
b. 5–10%
c. 10–15%
d. 1–5%

8.3 Which of the following reflexes is stimulated by a sudden loud sound? — ميدترم 2020

a. Moro
b. Babinski
c. Rooting
d. Palmar grasp

8.4 The normal average head circumference at birth is ..... cm. — ميدترم 2020

a. 37
b. 39
c. 30
d. 35

8.5 The expected time for the umbilical cord to drop off is ..... days. — ميدترم 2020

a. 1–3
b. 3–5
c. 7–10
d. 12–20

8.6 Which instruction does the nurse give to the mother about newborn breast engorgement? — ميدترم 2020

a. Express the breast frequently
b. Apply topical ointment
c. Measure the breast areola bud
d. Do not express the breast

8.7 The expected time for the umbilical cord to drop off is ..... days. — ميدترم 2020

a. 1–3
b. 3–5
c. 7–10
d. 12–20

8.8 The newborn loses about ..... of birth weight in the first week after birth. تكرر في 2 مصادر — ميدترم 2021

a. 1–5%
b. 5–10%
c. 10–15%
d. 15–20%

8.9 What term describes irregular areas of deep blue pigmentation seen predominantly in newborns? تكرر في 2 مصادر

ميدترم 2021

a. Acrocyanosis
b. Mongolian spots
c. Erythema toxicum
d. Harlequin color change

8.10 Tonic neck reflex is described as: placing the infant in a supine position with lateral rotation of the head to one side. (True / False)

ميدترم 2021

a. True
b. False

8.11 Facial stimulation by a puff of air induces swallowing and esophageal peristalsis in a healthy infant, called the Santmyer swallow reflex. (True / False)

ميدترم 2022

a. True
b. False

8.12 Which of the following is true about Mongolian spots?

ميدترم 2022

a. Disappear in about a year
b. Indicative of parental abuse
c. Managed by topical steroids
d. Linked to pathologic conditions

8.13 Milia is yellow spots that appear on the newborn's back. (True / False)

ميدترم 2022

a. True
b. False

8.14 The mother asked the nurse "what is the importance of the greasy whitish substance that covers the newborn skin?" The nurse's best response is to .....

ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Facilitate movement
b. Regulate body temperature
c. Improve circulation
d. Prevent infection

8.15 A sudden loud noise in the surrounding area of a newborn infant is likely to elicit which reflex?

ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Babinski
b. Moro
c. Rooting
d. Palmar grasp

8.16 What term describes irregular areas of deep blue pigmentation seen predominantly in the lower back and buttocks of newborns? تكرر في 2 مصادر

ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. Acrocyanosis
b. Mongolian spots
c. Erythema toxicum
d. Harlequin color change

8.17 The newborn loses about ..... of birth weight in the first week after birth. تكرر في 2 مصادر

ميدترم ترم ثاني 2023/2024 (شعبة 3 و 4)

a. 1–5%
b. 5–10%
c. 10–15%
d. 15–20%

8.18 When a baby is held upright with his/her feet touching a solid surface, the baby is likely to provoke which reflex? ميدترم ترم تاني 2023/2024 (شعبة 3 و 4)

a. Rooting
b. Swallowing
c. Stepping
d. Grasping

8.19 A newborn's skin is covered with a greasy whitish cheesy substance, known as ..... كويز 2 – 2022 (Microsoft Forms)

a. Lanugo hair
b. Vernix caseosa
c. Mottling
d. Mongolian spots

Part B · NCLEX-Style Practice

أسئلة على طريقة NCLEX (إضافة)

8.N1 A swelling of the newborn scalp that crosses suture lines is: NCLEX

a. Cephalhematoma
b. Caput succedaneum
c. Craniotabes
d. Hydrocephalus

8.N2 Bluish-gray patches over the lower back of a newborn are: NCLEX

a. Bruises from abuse
b. Mongolian spots
c. Erythema toxicum
d. Port-wine stain

8.N3 Select ALL normal newborn reflexes. SELECT ALL

a. Moro
b. Rooting
c. Babinski (fanning of toes)
d. Stepping
e. Absent sucking

8.N4 The newborn normally loses how much birth weight in the first week? NCLEX

a. 1–2%
b. 5–10%
c. 15–20%
d. 25%

8.N5 Vernix caseosa functions to: NCLEX

a. Cause jaundice
b. Protect skin and prevent infection
c. Increase heat loss
d. Indicate post-maturity

8.N6 Average head circumference at birth is: NCLEX

a. 30 cm
b. 33–35 cm
c. 40 cm
d. 45 cm

Part C · Quizlet Flashcards

كروت مراجعة سريعة

غطّي العمود الأبيض بورقة واختبر نفسك: شوف المصطلح وقول التعريف.

Weight loss	5–10% first week.	**Head circumference**	33–35 cm.
Chest = head	By end of 1st year.	**Vernix**	Greasy white; protects skin/infection.

Lanugo	Fine hair; more in preterm.
Mongolian spots	Blue-gray, lower back/buttocks; fade ~1 year+.
Cephalhematoma	Blood under periosteum, not crossing sutures.
Tonic neck	Supine, head turned → fencing posture.
Cord falls	7–10 days.
Milia	White papules on nose/chin.
Caput succedaneum	Soft-tissue swelling crossing sutures.
Moro	Startle to loud noise.
Breast engorgement	Maternal hormones; do not express.

1.38. b — Cephalocaudal law

1.39. a — Growth

1.40. a — Cephalocaudal law

1.41. d — Physical growth

1.42. d — Smiling for the first time

1.43. a — Growth
ملف ميدترم ترم تاني 2023/2024 كان من غير إجابات (اتنين بس متعلمين) — كل إجاباته مقترحة ومتراجعة على الملخص.

1.44. b — Growth
ملف ميدترم ترم تاني 2023/2024 كان من غير إجابات (اتنين بس متعلمين) — كل إجاباته مقترحة ومتراجعة على الملخص.

1.45. a — General to specific
الطالب كان معلّم general to specific على والتصحيح بالأحمر الإجابتين ليهم وجه؛ اعتمدنا الملخص. حسب الملخص: مسك الأشياء بالكف ثم بالأصابع مثال proximodistal. مثال «arms before fingers»). والملخص بيذكر proximodistal على general → specific

1.N1. b — Proximodistal
Proximodistal: control proceeds from the center (trunk, arms) to the periphery (fingers).

1.N2. c — Learning to speak in sentences
Development is a qualitative change in skills and capacity; growth is a quantitative increase in size.

1.N3. a, b, c, e — Proceeds cephalocaudally; Proceeds from general to specific; Each child has an individual rate; Development is the product of maturation and learning
The sequence of development is predictable even though rates differ between children.

1.N4. b — Heredity
Heredity determines the growth potential; environment modifies it.

1.N5. b — Spring and summer
Height grows faster in spring/summer, weight in autumn/winter.

1.N6. a — Infancy
Infancy is the most rapid postnatal growth period, followed by the adolescent growth spurt.

2.1. a — Concrete operation

2.2. b — 11 to 16
حسب الملخص: formal operations (11–16) = abstract, logical, inductive reasoning.

2.3. a — True

2.4. b — Has the ability to see logical relationships

2.5. a — True

2.6. a — Concrete operational

2.7. a — Concrete operational

2.8. c — Concrete operational

2.9. b — False
الصورة معلّم True، وده غلط: التركيز على جانب واحد (centration) خاص بمرحلة preoperational. في سن 12 الطفل بيقدر يشوف أكتر من جانب → False.

2.10. b — False
الصورة مكتوب فيها «Accommodation» — تغيير الفهم القديم = accommodation، فالجملة False.

2.11. b — Has the ability to see logical relationships

2.12. a — Schema

2.13. d — 11 to 16 years

2.14. a — Formal operational

2.15. a — Classifying
ورقة الطالب معلّم assimilation — الإجابة الصح classifying (التصنيف ملاحظة: الملف فيه أول 11 سؤال بس من 20. (من مهارات المرحلة دي صفحتين من 4)

2.16. a — Deductive and abstract reasoning

2.17. c — Formal operational
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

2.18. a — Operations
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

2.19. d — 11 to 16 years
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

2.20. a — Schema
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

2.21. c — 2–7 years

2.22. c — Abstract

2.23. a — Mental operations

2.24. a — Sensorimotor

2.25. a — Mental operations

2.26. a — Sensorimotor

2.27. a — Sensory-motor
الطالب اختار في كويز 2022 preoperational — الـ object permanence بتظهر في المرحلة الحسية الحركية (sensorimotor).

2.28. d — Has the ability to see logical relationships

2.29. d — Assimilation and accommodation

2.30. d — Preoperational

2.31. a — Sensorimotor

2.32. d — Has the ability to think abstractly

2.33. a — Sensory-motor
الطالب اختار في كويز 2022 preoperational — الـ object permanence بتظهر في المرحلة الحسية الحركية (sensorimotor).

2.34. b — Mental operations

2.35. a — Sensorimotor

2.36. d — Mental operations

2.37. b — Assimilation and accommodation

2.38. d — Formal operational

2.39. a — Ability to think abstractly

2.40. a — Ability to think abstractly

2.41. d — Assimilation and accommodation

2.42. b — Mental operations

2.N1. b — Object permanence
Object permanence develops in the sensorimotor period.

2.N2. a — Egocentrism and magical thinking
Preoperational thinking (2–7 years) is egocentric, magical and centered on one aspect.

2.N3. a, b, c, e — Classification; Conservation; Reversibility; Seriation
Abstract hypothetical reasoning belongs to formal operations (11+).

2.N4. b — Assimilation
Assimilation fits new info into existing schemas; accommodation changes schemas.

2.N5. d — Formal operational
Formal operations (11–16+): abstract, logical, hypothetical reasoning.

2.N6. b — Operations
Piaget calls internalized mental actions 'operations'.

3.1. d — Obedience and punishment

3.2. d — Discussing moral dilemmas

3.3. d — Discussing moral dilemmas

3.4. a — True

3.5. a — Preconventional

3.6. a — Moral

3.7. d — Obedience and punishment orientation

3.8. b — Obedience/punishment orientation

3.9. b — Interpersonal relationships

3.10. c — Family structure
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

3.11. a — Preconventional
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

3.12. c — The individualism and exchange orientation
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

3.13. d — Primary circular reactions
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

3.14. c — Moral

3.15. a — Universal ethical principles

3.16. a — Reciprocity
المفتاح الرسمي في الفورم صحّح justice الصح — على إنها غلط reciprocity.

3.17. a — Universal ethical principles

3.18. a — Reciprocity
المفتاح الرسمي في الفورم صحّح justice الصح — على إنها غلط reciprocity.

3.19. a — Moral

3.20. c — Reciprocity

3.21. b — Moral development

3.22. c — The individualism and exchange orientation

3.23. b — Reciprocity
المفتاح الرسمي في الفورم صحّح justice الصح — على إنها غلط reciprocity.

3.24. c — Family structure

3.25. b — Moral

3.26. c — Reciprocity

3.27. a — Preconventional
الطالب اختار Individualism — الصح Preconventional (طاعة القواعد لتجنب العقاب = obedience & punishment).

3.28. a — Universal principles

3.29. c — Posing moral dilemmas to children and analyzing responses

3.30. a — Punishment and rewards

3.31. b — Obedience and punishment

3.32. c — The individualism and exchange orientation

3.N1. a — Preconventional
Preconventional: obedience–punishment and individualism–exchange.

3.N2. b — Interpersonal relationships (good boy/good girl)
Conventional level stage 3: seeking approval and living up to expectations.

3.N3. a, b, c, d — Obedience and punishment; Individualism and exchange; Interpersonal relationships; Maintaining social order
Primary circular reactions belong to Piaget's sensorimotor period.

3.N4. b — Posing moral dilemmas (hypothetical stories)
He presented dilemmas (e.g., Heinz) and analyzed the reasoning.

3.N5. b — Discussing moral dilemmas and modeling
Discussing dilemmas and modeling moral behavior promote higher reasoning.

3.N6. c — Universal ethical principles
Postconventional stage 6: universal ethical principles.

4.1. b — Autonomy versus shame and doubt
إجابات الفاينال من ملف «حل فاينال الترم الاول» (حل الطلبة) ومتراجعة. أسئلة البلوغ والبالغين وكبار السن ومراحل الموت ومشاكل اتشالت لأنها برّه قائمة المحاضرات الـ preschool.

4.2. c — At this age, the child is developing his own sense of industry with peers

4.3. c — Preschool
سؤال توصيل في الامتحان الأصلي (الطالب كاتب «محلول صح»)، اتحوّل لاختيار من متعدد.

4.4. d — School age
سؤال توصيل في الامتحان الأصلي (الطالب كاتب «محلول صح»)، اتحوّل لاختيار من متعدد.

4.5. c — Adolescent
سؤال توصيل في الامتحان الأصلي (الطالب كاتب «محلول صح»)، اتحوّل لاختيار من متعدد.

4.6. g — Late adulthood
سؤال توصيل في الامتحان الأصلي (الطالب كاتب «محلول صح»)، اتحوّل لاختيار من متعدد.

4.7. b — Toddler
سؤال توصيل في الامتحان الأصلي (الطالب كاتب «محلول صح»)، اتحوّل لاختيار من متعدد.

4.8. a — True

4.9. c — Industry

4.10. c — Inferiority

4.11. b — Initiative

4.12. d — Intimacy vs. isolation

4.13. c — Toddler
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

4.14. c — Inferiority
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

4.15. c — Trust

4.16. a — Industry

4.17. b — Establish an identity

4.18. d — Autonomy

4.19. b — Establish an identity

4.20. d — Autonomy

4.21. b — Initiative

4.22. d — Identity

4.23. a — 1–3 years

4.24. c — Establish an identity

4.25. b — Industry

4.26. d — Autonomy

4.27. b — Initiative

4.28. d — Autonomy

4.29. c — Purpose
صياغة(purpose فضيلتها) preschool في الحقيقة مرحلة الـ initiative الـ ؛ ملاحظة: كويز شعبة 1و2 سؤال 10 مش موجود toddlers. السؤال قالت في الصور، وملف «كويز 1 جروث 2024» هو نفس صور الشعبتين فمتحسبش مرتين.

4.30. d — Hope

4.31. c — Trust versus mistrust

4.32. c — Industry vs. inferiority

4.33. c — Industry vs. inferiority

4.34. d — Initiative
الفورم صحّح initiative على إنها غلط ومكتوب «ليس هناك أي إجابات صحيحة» — حسب إريكسون مرحلة preschool = initiative vs guilt، فاعتمدناها.

4.35. a — Identity vs. role confusion; fidelity

4.36. a — Initiative

4.37. d — Inferiority

4.38. a — Initiative

4.39. d — Inferiority

4.40. d — Feel competent
الطالب اختار achieve inferiority — الصح feel competent (فضيلة الـ industry = competence).

4.41. d — Identity

4.42. b — Isolation

4.43. d — Initiative

4.44. b — Hope

4.N1. b — Autonomy vs. shame and doubt
Toddlers (1–3 years) develop autonomy — control over self and bodily functions.

4.N2. c — Hope
Hope (trust), will (autonomy), purpose (initiative), competence (industry), fidelity (identity), love, care, wisdom.

4.N3. a, b, c, e — Infant – trust vs. mistrust; Preschool – initiative vs. guilt; School age – industry vs. inferiority; Late adulthood – integrity vs. despair
Adolescence is identity vs. role confusion; intimacy vs. isolation is early adulthood.

4.N4. b — Inferiority
Failure in the industry stage leads to a sense of inferiority.

4.N5. b — Consistently meeting needs for feeding and comfort
Consistent, responsive care builds basic trust.

4.N6. b — Generativity
Middle adulthood: generativity vs. stagnation — guiding the next generation.

5.1. a — Oral

5.2. b — False
الصراع ده بيخص «Anal stage» — في الصورة مكتوب بالأحمر المرحلة الشرجية مش القضيبية.

5.3. b — This is a normal behavior at this age

5.4. b — This is a normal behavior at this age

5.5. b — False

5.6. b — False
الصراع ده بيخص «Anal stage» — في الصورة مكتوب بالأحمر المرحلة الشرجية مش القضيبية.

5.7. a — Latency

5.8. d — School age

5.9. a — Pleasure

5.10. d — Unconscious level

5.11. d — Anal

5.12. d — Considering the reality of the situation
الأنا (ego) بتشتغل بمبدأ الواقع (reality principle).

5.13. d — Unconscious level
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

5.14. c — Superego
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

5.15. a — Id
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

5.16. b — Anus

5.17. c — Id

5.18. c — This is a normal behavior at this age

5.19. b — Reality

5.20. c — Oral

5.21. b — Reality

5.22. c — Oral

5.23. b — Children's libidinal energy is reduced dramatically

5.24. d — Excessive eating

5.25. b — Mother

5.26. d — Latency

5.27. b — Father

5.28. b — Reality

5.29. d — Latency

5.30. b — Children's libidinal energies are reduced dramatically

5.31. d — Over-talking and eating

5.32. a — Oral

5.33. b — Reality

5.34. c — Id

5.35. a — Phallic

5.36. b — Latency

5.37. a — Phallic

5.38. b — Latency

5.39. a — Id

5.40. b — Mother

5.N1. c — Id
Id = pleasure principle; ego = reality principle; superego = morality/conscience.

5.N2. b — Anal
Anal stage (1–3 years): pleasure focus on the anus and bowel control.

5.N3. a, b, c, e — Age about 3–6 years; Oedipus/Electra complex; Masturbation can be normal; Focus on genitals
Dormant libido characterizes latency (school age).

5.N4. b — Overeating, smoking, nail biting
Oral fixation: excessive eating/talking/smoking; anal fixation: retentive or expulsive personality.

5.N5. c — Unconscious
The unconscious contains thoughts and feelings beyond awareness.

5.N6. d — Latency
In latency (6–12 years) sexual energy is reduced and channeled into learning.

6.1. c — Personal-social, fine motor-adaptive, language and gross motor

6.2. b — 1500

6.3. a — True

6.4. c — Draw a circle

6.5. b — 6

6.6. a — Can hop

6.7. b — False

6.8. a — Can hop

6.9. b — False

6.10. b — Neuromuscular

6.11. a — True

6.12. b — Imitates vertical lines

6.13. d — Intelligence level

6.14. b — Neuromuscular
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

6.15. c — 10%
إجابة مقترحة (المصدر مفيهوش إجابة رسمية). إجابة مقترحة: أقل من 10 الـth percentile = small (بعض المراجع بتستخدم 3rd أو 5th).

6.16. b — 1500

6.N1. b — 6 years
Denver II covers birth to 6 years.

6.N2. a, b, c, d — Personal-social; Fine motor-adaptive; Language; Gross motor
Denver II is a screening, not an intelligence test.

6.N3. b — No, it screens developmental delays, not intelligence
It is a screening tool to detect possible delays.

6.N4. c — 10th (or 5th)
Values below the 10th (or 5th) percentile or crossing two percentile lines need evaluation.

6.N5. b — Hops on one foot
Hopping is gross motor; the others are fine motor or language.

6.N6. b — Early detection of problems
Early detection allows early intervention.

7.1. a — Need resuscitation

7.2. d — Evaporation

7.3. a — True

7.4. d — Moderate

7.5. d — Drying the infant with a warm blanket

7.6. a — Mechanical

7.7. b — Drying the infant with a warm blanket

7.8. a — True

7.9. a — Large body surface area

7.10. d — Evaporation

7.11. a — Clamping of the umbilical cord after birth
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

7.12. d — Vaginal squeezing
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

7.13. a — Generates heat for distribution to other parts of the body
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

7.14. c — Major body system's response at birth
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

7.15. a — Convection
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

7.16. a — Resuscitative intervention

7.N1. b — Vaginal squeeze followed by chest recoil
Thoracic compression during birth expels lung fluid; recoil draws air in.

7.N2. b — Clamping of the umbilical cord
Cord clamping stops umbilical venous flow so the ductus venosus closes.

7.N3. a, b, c, d — Dry immediately (evaporation); Warm surfaces and scales (conduction); Avoid drafts (convection); Place under radiant warmer (radiation)
Early bathing increases heat loss.

7.N4. b — Generates heat (non-shivering thermogenesis)
Brown fat metabolism produces heat.

7.N5. c — Severe distress needing resuscitation
0–3 severe, 4–6 moderate, 7–10 good adaptation.

7.N6. a — Left atrial pressure becomes higher than right
Increased pulmonary flow raises left atrial pressure, pushing the flap closed.

8.1. d — Swelling of soft tissue across suture line

8.2. b — 5–10%

8.3. a — Moro

8.4. d — 35

8.5. c — 7–10

8.6. d — Do not express the breast
تضخم ثدي المولود (witch's milk) — ممنوع عصره بيروح لوحده.

8.7. c — 7–10

8.8. b — 5–10%

8.9. b — Mongolian spots

8.10. a — True

8.11. a — True

8.12. a — Disappear in about a year

8.13. b — False
حبيبات بيضا/صفرا صغيرة على الأنف والذقن، مش على الـ milia الضهر → False.

8.14. d — Prevent infection
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

8.15. b — Moro
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

8.16. b — Mongolian spots
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

8.17. b — 5–10%
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

8.18. c — Stepping
إجابة مقترحة (المصدر مفيهوش إجابة رسمية).

8.19. b — Vernix caseosa

8.N1. b — Caput succedaneum
Caput crosses sutures and disappears in days; cephalhematoma does not cross sutures.

8.N2. b — Mongolian spots
Mongolian spots are benign and fade by about 1–4 years.

8.N3. a, b, c, d — Moro; Rooting; Babinski (fanning of toes); Stepping
Absent suck is abnormal.

8.N4. b — 5–10%
Physiological weight loss of 5–10% is regained by 10–14 days.

8.N5. b — Protect skin and prevent infection
Greasy white material protecting the skin.

8.N6. b — 33–35 cm
About 33–35 cm, usually 2 cm larger than the chest.
